

# ART HISTORY COMPANION

a comprehensive guide towards the study of art history

Art History Companion is a comprehensive guide towards the study of the history of Western art. It covers a list of seventy five well-known works of art from the Prehistoric era to the Modern and Contemporary. The workbook also takes time to focus on several facts, quotes and anecdotes related to the works of art, which enrich more the content of this compilation and narrate the social, political and religious happenings behind each selected work.
